# With Perspective 视角绘图

Practice: Try drawing the complex shape from the previous page with perspective. You will need to draw additional guidelines. Your box can be a different shape and size than the example.
练习：试图用视角绘图绘制出一个复杂的图形，添加线条你的绘图将会呈现出与例图不一样的形状和大小。

Final Sketch: Draw the box with perspective one more time. Then use your pencil or colored pencils to shade the shape so that it looks like a 3-Dimensional object.
最后的草图：再画一次透视框。然后用铅笔或彩色铅笔对形状进行着色，使其看起来像三维物体。

Extra Template: If you were not successful on your first attempt try again and improve your drawing. Remember Practice Makes Perfect.
附加模板：如果前一个绘图做的不好，这里可以再重新尝试一次哦，希望你能成功。
记住：熟能生巧！

Class Period:_____   Name:_____

Look at the example. Try drawing this box using 2-point perspective. The two perspective points are shown using different colored lines, Red and Blue. All the perspective guidelines originate from one location and spread out like a fan.
请看下例，该图是使用 2 个视角画出来的，且分别用红色线和蓝色线标注出来，而所有的同种线条都是从一个点发射出来就像一把扇子。

Trace these construction line using a "Red" pen. 用红笔画出这条构造线。

Trace these construction line using a "Blue" pen. 用蓝色笔画出这条构造线。

Trace the example to practice drawing a picture using 2-point perspective.
使用2点视角绘出上例图片。

NOTE: The vertical lines are parallel to the Y-axis and perpendicular to the X-axis.
注意：垂直线平行于 y 轴并且垂直于 x 轴。

Complete the picture of the box.
完成下图。

Practice: Try drawing a box with perspective. You will need to draw additional guidelines. Your box can be a different shape and size than the example.
